1888, 1812, 1984, 1994 ARE ALL SOLAR MINIMUM EVENTS

The Great Plague, several Dark Ages and South America's Extinction may be nothing compared to Egypts collapse. The Alphabet, may have been 23 electromagnetic expressions from our mammalian brains, evolved to sense everything inside this planet's atmosphere. So why "X", "Y" and "Z"? Three super massive solar events? Phhhhfffft. Neuro Genetic Linguistics Await!

ARE EARTHQUAKE LIGHTS LINKED TO SOLAR WEATHER?

Probably. Did people underground survive? Ashes to Ashes, Dust to Dust. The Sun, is linked to Earth via Magnetic "Birkeland" Currents. When solar polarity shifts, curly auras (corona) intensify, the upper atmosphere collapses and pressure doppler shifts for 2-3 years. Every 10 to 12 years, people lose everything as they blindly lash out at each other. Time to blame the solar intellectual deficit and decriminalize everyone. The final step towards Cybertron and Barbarea.
